French, Sane, Will Die

Death Sentence To Be Pronounced On Monday

ALTURAS (UP)—Harry French, convicted of first degree murder in the "newspaper feud" slaying of Claude L. McCracken, and found sane by the same jury that convicted him, will be sentenced to death July 19 by Superior Judge P. F. Jameson, it was announced today.

A jury of 10 men and two women found the former state tax official and son of the publisher of a weekly newspaper in Alturas, sane. Their verdict made the death penalty mandatory.

French was visibly upset by the verdict. He started as though to rise then turned pale and slumped in his chair. His wife, who had testified in his behalf, both at his trial and at the sanity hearing, showed no outward emotion.

Defense attorneys immediately filed oral motion for a new trial and August 6 was set tentatively for arguments on a formal motion to be submitted later.

French was said to have broken into McCracken's home and to have shot him five times without warning while McCracken and two women companions were dining. McCracken, publisher of a mimeographed newspaper, died in the arms of his wife, a nurse in the hospital to which he was taken. French surrendered later to police.

Placerville To Be Saluted

"Tale Of Okei San" On P. G. & E. Radio Hour Sunday Night

Placerville and El Dorado County are to be saluted once again by the Pacific Gas and Electric Company in its "Tale of California" radio program next Sunday night. When the story contest for El Dorado County was held a few months ago, an interesting tale entitled, "The Story of Okei San" was submitted by Mrs. Sadie R. Reeg of Placerville. She was awarded the second prize at the time but the story was regarded as having such merit that it has now been written into dramatic form for broadcasting and will be heard at 9:00 o'clock Sunday night over stations KPO of San Francisco and KPBK of Sacramento. Mrs. Reeg has been awarded her choice of an electric range, an electric refrigerator, or other electric appliances having a total retail value of \$140 for the use of this story of the little Japanese woman who planted tea upon the hillside near Placerville.

All the favorite actors of the "Tales of California" program will be heard as usual in this broadcast. There will be "Pop" the old lineman, his effervescent helper Bill, and the singing lineman, John Blund.

Placerville is the fifth community to be honored with a second salutation on this program since the series began nearly one year ago, the other communities being San Francisco, Oakland, Sacramento, and Auburn.

GIRL DEFENDS FATHER HELD FOR ARSON

LANSDOWNE, Pa. (UP)—Ruth Knight, 23, stood by her 55-year-old father, Albert R. Knight, who is in Delaware County jail today, angrily denouncing as "ridiculous" a charge that he attempted to burn her and her two younger sisters to death in order to collect \$130,000 insurance on their lives.

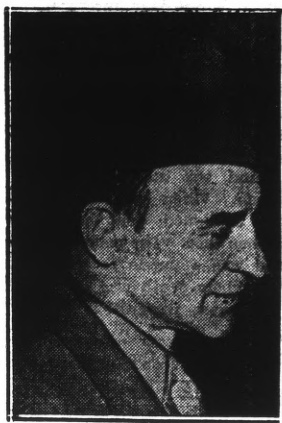

Knight, once wealthy oil company executive, was held in default of \$10,000 bond after he had waived a hearing. He was accused of setting fire to his suburban home on May 28 while Ruth, Sue, 19, and Mary, 17, were asleep. None of his daughters was injured.

Knight offered today to submit to immediate trial. He predicted his full vindication, insisting his "insurance and other transactions were carried on in interests of my five children."

Knight insisted that he was in Washington on the night of the fire, which started in the basement of his home.

WED—Mae West, screen star, who admitted in a Los Angeles court that she was married to Frank Wallace, New York vaudeville performer, on April 11, 1911. She formerly said she had "never heard of the guy."

HUSBAND — Frank Wallace, former New York vaudeville performer, who brought a court action in Los Angeles to confirm his marriage to Mae West, screen star, and to establish a community property interest in Miss West's holdings. She admitted she had married him.

"GOOD SAMARITAN" MENACE TO VICTIMS IN CRASH

Curbstone Kibitzers Often Aggravate Hurts Of Injured By Lack Of Sound First Aid Principles, Says Surgeon

CLEVELAND (UP)—The crumpling crash of an automobile accident invariably draws an excited crowd of bystanders, witnesses and scores of "helpful" suggestions for the care of the injured.

From these crowds of curbstone kibitzers there invariably steps "the good samaritan" who offers the use of his car and knowledge of the city to speed the crash victims to the nearest hospital. "The good samaritan" supervises and aids in the placing of the injured in his car and then drives with all speed to the nearest emergency ward with his self-imposed "charge."

The curbstone "good samaritan" is somewhat of a menace and usually does more harm than good to the auto crash victims, believes Dr. George P. O'Malley, for 15 years head police surgeon of Cleveland.

"Reductions of traffic" deaths and serious injuries depends most—next to prevention of accidents themselves—upon the clear-headedness of the persons on the scene," Dr. O'Malley said. "Once a smashup has occurred, the problem of immediate importance is to get the victim to a hospital emergency room without aggravating his injuries."

For the bystander to make himself more useful at the scene of an auto accident, Dr. O'Malley gave these rules: First—Summon an ambulance. Second—Refuse to jam an injured person into the first passing auto.

(Continued on Page 4)

FARM BUREAU'S "DAY" AT FAIR SET

BERKELEY—Designation of September 3 as "Farm Bureau Day" at the California state fair, held in Sacramento, was announced today by the board of directors of the California Farm Bureau Federation.

This also is the date on which the thousands of rural young men and women, members of the 4-H Boys' and Girls' Agricultural Clubs, have their annual meeting at the state fair, and exhibit the results of their year's agricultural, livestock and home economics projects.

Annually, "Farm Bureau Day" has drawn thousands of farmers and their families to the state fair from all sections of the state. Members of the California Farm Bureau Federation are addressed that day by the governor of the state.

This year, as in the past, the Federation has planned to install a comprehensive exhibit, featuring the economic, legislative, and service work of the organization. In charge will be W. J. Johnson of Ukiah, assistant secretary of the Federation.

Employment In State Gains In June

SAN FRANCISCO (UP)—Sharp increases in employment in California industry during the month of June, 1937, as compared to the same month a year ago were reported today in a report submitted to Governor Frank F. Merriam by Edward L. Nolan, state labor commissioner. Surveys of 1,737 representative manufacturing concerns showed employment increases 12.2 per cent, weekly payroll volume 24 per cent and average weekly earnings 10.5 per cent, Nolan said.

FANS BOOST SOLONS

Tickets Available For Tonight's Game At Sacramento

If you want to be among the couple of hundred fans who will go to Sacramento tonight to see the Solons battle the Angels, perhaps you can still get seats, if you will inquire at Fox Brothers, The Sportsman's Shop, Murray's store or at the chamber of commerce desk at Hotel Raffles.

There's a special rate for reserved grandstand seats, for this is "El Dorado County Day" at the Solon baseball park and ladies are free, except for the tax.

Arrangements have been made for something "a little special" in the way of doings at the ball park. El Dorado County will have a ten-minute period on a Sacramento radio station, "Bevo" LeBourveau, former major leaguer, will be interviewed by a radio announcer, and the county will have the use of the park's loud speaker system during the night.

El Dorado County is reciprocating by sending its fans to the Solon park "armed" with ten cases of especially packed peaches, which will be distributed as premiums to ball players during the game.

"Pick A Star" On Saturday

Laurel And Hardy Top Notable Cast In Laugh Riot

Pick a spot for "Pick A Star" for mirth and melody in a movie mirage! This latest Hal Roach-M-G-M feature comedy opens Saturday for one day at the Empire Theatre.

When Jack Haley and Rosina Lawrence, aided and abetted by Patsy Kelly, invade Hollywood, it paves the way to crash the studio gates and unveil all the interesting glamour and hilarious humor of what takes place before and behind the cameras in making movies.

To see those famous lean and fat funnymen—Laurel and Hardy—in their new buffoonery and whimsical fantasies; Mischa Auer and Lyda Roberti in the glare of lights as movie stars; massed choruses of hundreds of Hollywood's famous songsters and dancers and all the action on the sets prove most interesting and a starry laugh reign for a balmy evening.

Rosina Lawrence, the hometown girl making good and being won by Jack Haley, the hometown boy in the madcap whirl of the movie world, provides the human-interest story that bursts all bounds of comedy and melody.

Veteran Edward Sedgwick was credited with the direction and Norbert Brodine the excellent photography.

NEW POLAR DASH FROM MOSCOW IN AUGUST

LOS ANGELES (UP)—Soviet aviation, having demonstrated its ability on long flights over uncharted, dangerous areas in two transpolar flights, now will send a third plane on a one-stop trip over the top of the world from Moscow to California, it was announced today.

The proposed flight was discussed while the three heroes of the record breaking Moscow-San Jacinto non-stop flight, which ended Tuesday, were receiving the official greeting of Los Angeles and visiting the movie studios.

Sigismund Levanevsky, the Russian "Lindbergh" will head the next flight, Stanley Shumovsky, United States aviation advisor of the Soviet government, said. A four-motored plane will be used and a refueling stop will be made in Alaska.

Sacramento To Vote On Parking Meters

SACRAMENTO (UP)—Proponents of a trial for parking meters today admitted themselves temporarily "licked." More than 600 names are listed on the referendum which will place the question on the ballot at the next city election, November 2.

Only 500 signatures were necessary.

Mr. and Mrs. Thomas Ward left on Friday afternoon to spend the weekend at Lumberyard ranger station.

Pear Growers Outline Drive To Stimulate Sales

Newspapers And Radio To Be Used In Promotional Effort To Reach Buyers In 15 Major Markets Of Nation

Operating under a new state law, California growers of fresh Bartlett pears will send their delicious product this year to markets throughout the United States under guidance of newspaper advertising, radio announcements and store promotion.

In the fifteen major markets of the nation, there will be advertising campaigns so arranged that the public will be fully informed of the availability of the famous golden fruit from the fertile valleys of California.

Timing of the advertisements so as to coincide with the sale of fresh Bart-

lett at the various points of distribution will be a feature of the marketing campaign, according to James A. Irving, chairman of the California Fresh Bartlett Pear Advisory Board.

"Radio programs and store promotional activities will augment newspaper advertising," Irving said recently in outlining the California fresh Bartlett growers' plans. "Store display posters and a most attractive cut-out price tag will be in stores and markets at the exact time when each community reaches its peak in fresh Bartlett pears."

Associated with Irving on the Advisory Board are: Wendell Henderson, Kelseyville; Philip Bancroft, Walnut Creek; D. J. Elliott, Courtland; J. B. (Turn to Page 4)

"Invaders" Taken Prisoners

Placerville was "attacked" Thursday midnight and the "invaders" were captured by a "field force" under the command of Chief of Police James P. Morton.

A late report from the field headquarters of Marshall Morton indicates that the "enemy" has offered unconditional surrender.

Marshall Morton states he is not in position to dictate terms of peace and will refer the matter to Judge Eugene Creed.

All of which is by way of saying that the young men who kept most of the residents of Placerville awake Thursday night by riding about the city setting off firecrackers about midnight, have been cited by Mr. Morton to appear before Police Judge Eugene Creed.

They are Larry Hearn, Ralph Graham and Luke Hadley.

Earhart Search Nearing End

HONOLULU (UP)—Navy airmen, flying in the intense equatorial heat, continued their search today for Amelia Earhart and Frederick J. Noonan, her navigator, who have been lost since July 2.

The air search, with from 40 to 60 planes participating, has covered 40,000 square miles of the Pacific Ocean around Howland Island in three days. The search area gradually is being extended westward toward the Gilbert Islands, which may have provided a haven for the fliers if ocean currents carried their plane in that direction after a forced landing.

Fuel shortage was expected to force the Lexington to abandon the search by Saturday or Sunday night. Unless found by then, Miss Earhart and Noonan will join the long roll of fliers who tried to span the Pacific and never came back.

NEW YORK (UP)—The Transamerica corporation today announced plans for active entry into the field of oil and gas production.

The project will include exploration of 325,000 acres of the holdings of California Lands, Inc., a subsidiary of Transamerica. Recent surveys, the company said, have shown that more than 35,000 acres of the land are in proven or semi-proven territory.

The development will be carried out through California Lands, Inc., under the direction of President E. D. Woodruff. An oil and gas division has been set up headed by Frank Jones, former manager of Middle Dome Corporation.

Parents Warned Of Cosmetic Vendor

SACRAMENTO (UP)—Police today warned parents and children to guard against a 35-year-old cosmetic salesman who assertedly attempted to molest two Sacramento youths, one 12 the other 14.

Authorities who placed the boys on a homeward-bound train said the man gave the children a ride from North Sacramento, then rented a tourist cabin at Chico and attempted to force them to submit to his advances. The younger boy called police and the man fled, police said.

Nation Mourns Arkansan

Pres. Roosevelt At Rites For Sen. Robinson

By JOE ALEX MORRIS
United Press Staff Correspondent
WASHINGTON (UP)—The great and humble said a sad farewell today to Joseph Taylor Robinson of Arkansas.

The Senate battlefield from which death took him in the midst of the climactic conflict of his career was transformed into a field of morning as President Roosevelt led dignitaries of the nation at a state funeral in final tribute to "a soldier fallen with his face toward the battle."

Brightly blanketed with orchids and gladioli, the body of the late Majority Leader lay in a grey coffin in the well of the chamber.

The President bowed his head directly in front of the ancient red mahogany desk at which Robinson had led the battles of the New Deal. This desk, alone in the crowded, silent chamber, was unoccupied to symbolize a vacant place against the background of legislative warfare.

Behind the President sat the black clad widow of the Majority Leader and stretching back to the walls of the chamber were the Democratic senators who had followed Robinson—some faithful through 15 years of tribulation and of victory; some who had rebelled at times; none who had failed to respect his leadership.

NAVAL BOMBERS END LARGEST MASS FLIGHT

KODIAK, Alaska (UP)—Twenty-three Navy bombing and patrol planes, making the largest mass flight of planes ever seen in the northern territory, were in Alaska sea bases today prepared to begin extensive maneuvers and training.

Twelve of the planes were assigned to the Kodiak Island base and the remaining 11 were moored at Sitka, the old Russian capital.

The airplane carrier U. S. S. Langley, was stationed at Sitka and the U. S. S. Sandpiper, a minesweeper, was at Kodiak to act as the base ship.

The planes are operating under command of Lieutenant Commander T. A. Gray, who is remaining at Sitka.

Firemen Cancel Meet To Fight Flames

SACRAMENTO (UP)—A fire that caused damage estimated at more than \$5,000 last night gutted the factory of a Northern Sacramento fire equipment company.

The blaze broke out just before a scheduled meeting of the county's volunteer firemen, who promptly deferred it to battle the flames.

Taking In A Lot Of Territory

PARADE OF SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

NEW YORK (U)—The prestige of that baseball institution known as the spring training camp is taking an awful kicking around from Charles (Rufus the Red) Ruffing this year.

Every time Manager Joe McCarthy, from the depths of his infinite wisdom, sends Charles out to pitch for the Yankees, Charles proceeds to win. The latest statistical bulletin reveals that he has a season's record of 11 victories against two defeats, which is as sparkling as your favorite tiger's eyes.

If the spring training camp business were as vital as baseball's wise men would have us believe it is, Charles should have the inglorious record of no wins and thirteen losses. Because Charles never saw the inside of one this year. When the call came for the Athletics to depart to southern climates, Ruffing was busily engaged in holding out for more money from his home in Nokomis, Illinois. And he continued to hold out until middle May, and never was any nearer a training camp than his own front yard.

Not one shaft of Florida sunshine, with its beneficent vitamin J rays, touched his torso. He lolled on no beaches, sucked no oranges, bought no lamps made from conch shells, played no golf, caught no fish. In short, he enjoyed none of the training camp routine which is supposed to ready a man for a season of big league play.

He just sat at his desk in Nokomis, in the chill of an Illinois early spring, and wrote spiteful letters to Jake Ruppert. That was his sole exercise—that and running down to the corner grocery, the barber shop, the postoffice and the movies.

When Ruffing finally joined the Yankees in New York in May, the baseball critics sadly shook their heads.

"Why he isn't even sunburned!" they said. "He will be lucky to win five games this year."

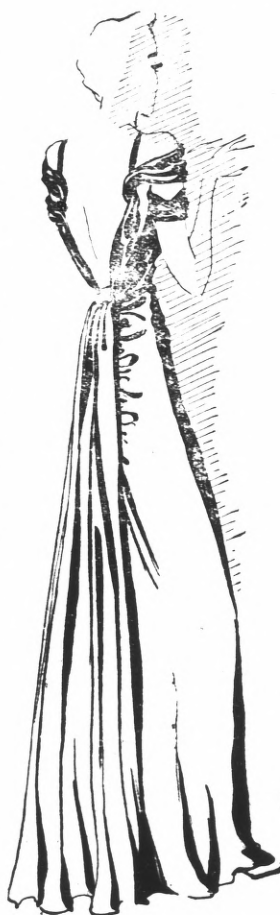

They prophesied Ruffing's arm would be as full of kinks as a bushman's hair, his legs as unstable as gelatin, and his timing as unsure as an indoor sun dial.

They were all wrong and Ruffing, from the first time he told the slab, had all the stuff on the ball he ever had, and a little bit more. As a result, I see but one conclusion to draw:

That spring training camps are chiefly a fine publicity dodge for baseball and the chambers of commerce where the teams train.

Which is perfectly all right, of course. Your true baseball filibuster probably would go crazy if he had to do without any word of his heroes from the time the world series ends in October and the season starts in April. By March he is almost wild for stories and pictures of the noble Athletics. He isn't particular what kind of stories and pictures they are, either. He will devour articles telling how much weight shortstop Joe Doakes lost over the winter, and where rightfielder Ben

Republican Classified Ads Always Pay

went moose hunting. And he will feast his eyes on pictures of the Athletics playing catch on the beach, shinnying up a grapefruit tree, and cashing a \$2 ticket at a dog track.

The spring training camps provide him with these stories and pictures, and work up his enthusiasm to such a pitch that by the time the season rolls 'round, nothing short of violence could prevent his being in the grandstand for the opening game.

Search For Key To Luster Of Pearls Fatal To Jeweler

PARIS (U)—Trying to discover a system to make "dead" pearls glow with a pale pink flush of life, and thereby make millions, cost Maurice Mariner his life. Unemployed at 60 after a lifetime as an expert jeweler, Mariner had become a modern amateur alchemist and was experimenting with chemical fluids when he was killed.

A concoction which he had made in his bathroom-laboratory exploded in his hand, test tube glass piercing his stomach. When police arrived, he feebly explained what had happened and then died. The compound he had mixed was a puzzle to police laboratories, where death was said to be due to the glass perforation and certain acids.

Leonard Rosenthal, one of France's

expert jewelers and pearl specialists, interviewed on the experiments of his former colleague, declared that the modern search for a compound which could bring "dead" or worthless pearls to life was as hopeless as the ancient alchemists' search for the touchstone to making gold.

"Pearls," he said, "are things which never die. They are either born still-born and dead, or living. Still-born pearls with their dull, dead look can never be revived, and attempts such as that which led to the death of Mariner are absolutely futile.

"This doesn't mean that all pearls that look dead are really so, though it takes a real expert to know when looking at them just after they have

been extracted from the oyster. In most cases, the upper layer, or layers, of an oyster are not at all pretty. Having been built by the oyster in successive layers of congealed fluid, each layer has its own characteristic.

"The expert pearl jeweler's job is to see what layers lie below those which are uppermost, and to decide what tint and what layer will give the greatest value to the pearl. And then, of course, to remove the less beautiful layers without damaging the lower, richer ones.

"I have recently perfected a process whereby this can be done in eight days, but it certainly does not consist in bringing dead pearls to life, but of finding the most living layer of the pearl. Attempts to find a touchstone to life, in pearls as in other things, is doomed to failure, and often to disaster."

Nell's Final Inspection

By Harry F. O'Neill

BRIGHT LAD AIDS IN CAPTURE OF MOTORIST

PHILADELPHIA (AP)—A fourteen-year-old boy, Eugene McGovern, has all the makings of a good G-man, police here think.

Gene and his buddy, Jimmy Seiger, 13, were playing under a railroad bridge when a car came along and knocked Jimmy sprawling. The car slowed down, then roared away.

Jimmy was carried away with a fractured ankle. Police were at a loss to know who the driver of the car was. But Gene stepped up with:

"The car was a green one, and here is his license number on the back of this old match cover. I scratched it on with a piece of wire."

With this information, it was easy to trace the alleged owner of the car.

Pope Pius Better, Intimates Say

CASTEL GANDOLFO, Italy (AP)—Intimates of the Pope revealed today that the Pontiff, who recently suffered a slight setback in his health, has been feeling much better since the ceremonies at Lisieux, France, last Sunday, when a new church was dedicated to the Pope's favorite saint, Theresa, the little flower.

ANNOUNCEMENT

Dr. H. E. Hollenbeck, D. C., wishes to announce that beginning July 13 his office will be open the regular hours, 9 to 12, 2 to 6, 7 to 8.

RUNNING FEET, TOO? — Glenn Cunningham, world's fastest miler, examines the feet of his infant daughter, Sara. "She could be a runner," he said, "but an athlete's life is too rigorous." Glenn is shown at his home in Peabody, Kas. He will return to New York University next fall for his Ph. D. degree in physical education.

How much does a signature weigh? Well, this signature in lead pencil... not the paper... just the writing, weighs .3 (three-tenths) milligram. And that is how accurate they are in the foundry laboratory at Pontiac Motors. Samples of iron that is being poured into the molds are taken from the ladles every hour. A complete chemical and physical analysis is made of every sample to see whether or not the right proportions of carbon, manganese, sulphur, phosphorus, silicon, nickel and chromium are present, and to see just how hard, brittle, strong and tough the metal is. When samples of carbon and silicon are put in this delicate scale they are balanced to the thousandth gram.

Obstetrician Slain In Own Home

PROVIDENCE, R. I. (AP)—Dr. George W. Webster, 39, chief obstetrician at Homeopathic hospital, was wounded fatally by gun fire at his fashionable home early today. He died at a hospital without naming his assailant.

The only statement Police Superintendent James J. Cusick could draw from Dr. Webster before he died was:

"I'll tell you all about this shooting if I recover."

Henry Bacchi was in town Friday from his Peavine range.

Delayed Six Months, Airmail Delivered

ALBANY, N. Y. (AP)—A letter mailed in Coronado, California, December 13, was delivered to Laurence Moses June 23.

Stamped across the face of the letter was the explanation:

"Delayed due to airmail interruption near Salt Lake City, December 15, 1936."

The letter had been carried by a plane that crashed near Salt Lake City with the loss of nine lives.

Navy Extends Air Defense

Fleet Of Bombers For Outposts Is Planned

By ARTHUR N. SUVERKRUP
United Press Staff Correspondent
SAN DIEGO (AP)—The Navy is lengthening and strengthening its "first line of defense" in the Pacific.

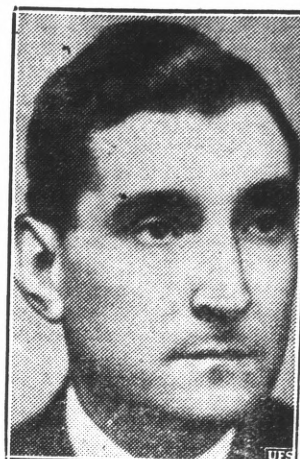

Before the end of 1938 huge patrol bombing planes, most powerful air fighters of their type in the world, will be droning along almost daily over some part of an area embracing some 5,000,000 square miles. The planes will be stationed so as to be instantly available should trouble rise in the Pacific.

It is the plan of the Navy to have 140 of these most modern fighting craft on duty in the great semi-circle extending from the Aleutian Islands, through Guam, Wake and Midway to the Hawaiian group and then bending eastward to Panama before another 12 months passes.

Planes designated for this duty are the PBV-2's, with a cruising range of nearly 4,000 miles, a top speed of in excess of 150 miles an hour, with a full load. The full load consists of at least 10,000 pounds of gasoline, a crew of six or seven men, machine guns, munitions, and more than a ton of bombs.

In order to have these fighters at strategic points, the Navy, during the next few months, will sponsor at least nine long distance, mass flights, similar to the three carried out already this year as "routine transfers."

Hardly had the planes of the VP-3, F squadron landed at Coco Solo, C. Z., after a 3,085-mile-nautical-mile flight

ESCAPES—Premier Antonio de Oliveira Salazar of Portugal, who escaped unhurt from a would-be assassin's bomb when he arrived to attend mass at a private chapel in Lisbon. His car was enveloped with dust and smoke, but he emerged dusting his clothes.

from San Diego than it became known at least two more Panama flights are to be undertaken in the near future, with the crews already here for intensive training. The new PBV-2's are to be ferried to the Canal Zone in each instance to replace older, less formidable patrol bombers.

Three more flights across the 2,500 nautical miles from San Diego to Pearl Harbor are being planned, with two already successfully completed since January 1.

Seattle, near the Canadian border, and the operating base for the Bering Sea and far northern waters, also is to receive two squadrons of the powerful new fighting crafts.

Russians Bare Polar Secret

Aerial Expedition Determines Shape Of Earth's Crust

LENINGRAD (AP)—Prof. R. L. Samoilovich, director of the All-Union Arctic Institute, has summarized the work carried out by the four Russian explorers who flew to the North Pole and established a base there.

Paying tribute to Ivan Papanin, Ernest Krenkel, Peter Shirshov and Eugene Federov, the professor said:

"Four courageous men, despite the brief time of their stay at the North Pole, have made a number of exceptionally important discoveries concerning the nature of the vast white spot, the center of which is the pole."

"We knew nothing about the Central Polar Basin, whereas at present we know precisely the depths prevailing in the proximity of the North Pole and we can say with certainty that the Arctic Ocean represents a cup, the deepest parts of which are located in the vicinity of the North Pole."

"Until lately we had no idea of the direction of the warm current of the Gulf Stream in the northern latitudes; now we know that even on the pole there passes a powerful current of comparatively warm Atlantic water."

300 Men Fight Fire Near Pasadena

PASADENA (AP)—Three hundred battled a brush fire today in the east fork of the East San Gabriel Canyon, known as Fishfork, where more than 200 acres of brush were burned last night.

Francis, Auburn; F. W. Read, California Fruit Exchange; W. A. Lambert, Lambert Marketing Company; Scott F. Ennis, Pacific Fruit Exchange; P. M. Brady, Earl Fruit Company; and Walter U. Fredricks, Jacobs, Malcolm & Burr Company. The board is representative of producers, distributors and processors.

While the merchandising campaign will be a complete coverage of the United States, the fifteen major markets will receive specific attention. They are as follows: New York, Philadelphia, Boston, Baltimore, Chicago, Detroit, Minneapolis, St. Paul, Pittsburgh, Kansas City, St. Louis, Cleveland, Cincinnati, Milwaukee, Los Angeles and San Francisco.

The marketing order under which California fresh Bartlett pears will be handled this year was issued by A. A. Brock, state director of agriculture, under the California Marketing Law (HB 942) which was signed recently by Governor Frank Merriam.

More than two-thirds of the fresh Bartlett growers, first group to make use of the new law, signed the marketing agreement.

State of California
Department of Public Works
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the State Highway Engineer, Public Works Building, Sacramento, California, until 2 o'clock p. m. on July 21, 1937, at which time they will be publicly opened and read, for construction in accordance with the specifications therefor, to which special reference is made, of portions of State Highway, as follows:

Yolo, Colusa, Yuba, Placer, Nevada and El Dorado counties at various locations in District 111, about forty-three and two-tenths (43.2) miles in length, seal coat to be applied to existing roadbed.

In accordance with the provisions of Chapter 397, Statutes of 1931, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hr.
Blade grader operator	\$1.25
Carpenter	1.125
Dragline operator (except shovel type)	1.25
Operator of power shovel or other excavating equipment, shovel type controls (% cubic yard or more)	1.50
Roller operator	1.25
Tractor driver (50 h. p. and over)	1.25
Intermediate Grade Labor	
Asphalt plant fireman	0.90
Blacksmith	0.82
Mechanic (trouble shooter)	0.88
Oil distributor bootman	0.75
Other (power shovels or cranes)	0.90
Tractor driver (under 50 h. p.)	0.75
Truck driver (less than 4 cubic yards water level capacity)	0.68
Truck driver (4 cubic yards water level capacity or more)	0.75
Unskilled Labor	
Flagman	0.60
Guard	0.60
Handyman (roustabout)	0.60
Laborer	0.60
Teamster	0.60
Watchman	0.60
Any classification omitted herein not less than	0.60
Overtime—double the above rates.	
Sundays and holidays (except watchmen, guards and flagmen)—double the above rates.	

Proposal forms will be issued only to those Contractors who have furnished a verified statement of experience and financial condition in accordance with the provisions of the State Contract Act, and whose statements so furnished are satisfactory to the Department of Public Works.

No bid will be accepted from a Contractor who has not been licensed in accordance with the provisions of Chapter 791, Statutes of 1929, as amended, or to whom a proposal form has not been issued by the Department of Public Works.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and there may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco and in Los Angeles. The District Engineers' offices are located at Eureka, Redding, Marysville, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino, Bishop, Stockton, and San Diego.

A representative from the district office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character, and quantity of work to be done, with a representative of the Divisions of Highways. It is requested that arrangements for joint field inspection be made as far in advance as possible.

No bid will be received unless it is made on a blank form furnished by the State Highway Engineer. The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding, etc.

The Department of Public Works reserves the right to reject any or all bids.

Neck Broken In Three Places, Railroad Man Survives

HOUSTON, Tex. (UP)—John H. Stringfellow, 56, railroad man, with his neck broken in three places, waited four days before he decided that he ought to go to a hospital.

Four minutes after physicians viewed X-ray photos, they shook their heads and despaired of his life.

But Stringfellow just lay on his hospital cot and looked at them—and lived. He had survived seven major railroad accidents and was not unduly worried over a broken neck.

Working on a railroad at 18, he was in tow train collisions in Alabama. One killed five persons, but he was unhurt. The second accident was fatal to everyone except Stringfellow.

In 1908, he was running a train from Commerce, Texas to Tyler, when it jumped the track. He was unhurt.

Two years later, he missed the footboard of an engine at Shreveport, La., and was knocked under the train. Surgeons put a silver plate in his skull and he recovered.

An obstruction swept him off a railroad car in 1917. He was thrown 20

feet through the air, several ribs were broken but soon mended.

Accident No. 7, occurred when an engineer had to set his brakes suddenly. John was catapulted into a car of building material. He was patched up again and returned to work.

His last mishap occurred when he was out of his element. Stringfellow was astride his brown mare, Lady, trying to shoo some wild ducks across a pond so his friends could shoot them.

His horse refused to enter the water. Stringfellow used his spurs. He woke up in bed at home where his son, Walter, had taken him.

Putz Puts Affairs In Order, Ends Life

TURLOCK (UP)—Funeral rites were pending today for Max Putz, 81, who carried lifelong habits of neatness and order into his death by suicide with carbon monoxide in his garage here.

Putz cleaned his home, arranged his clothes, wrote out changes of address for persons mentioned in his will, left keys to safety deposit boxes and stamps for authorities who were to clean up his last affairs, before he started his auto and allowed the poisonous gas to kill him.

He also had purchased a funeral plot adjacent to that of his wife who died several years ago and made arrangements for services.

CIVIC HALL ON BLOCK

HONOLULU (UP)—Civic auditoriums have become a drug on the market here. However, the city's \$40,000 hall brought \$1,400 at sheriff's sale, with all obligations thrown in as good measure.

Jealous Speedster Protects Record

PROVO, Utah (UP)—Gener Keys of Salt Lake City was pretty mad when the officer testified he was driving 65 miles an hour.

"Sixty five an hour nothing," protested Keys. "I was making 75." He paid the \$15 fine.

"Samaritan" Is Held Menace

(Continued from Page 1)

Awkward haste and unskilled handling by the curbstone congregations are the two surest allies of death and disability that hover over every accident, according to Dr. John Dickenson, state chairman of the committee on fractures of the American College of Surgeons.

"A simple leg fracture, for instance, when the limb is not splinted, may be converted into a compound, with the jagged edges of bone sawing through flesh and nerves like a knife. A splintered rib may pierce a lung, or a smashed vertebra sever the spinal cord during the apparently simple act of lifting a victim into an auto," Dr. Dickenson pointed out.

Men at the scene of an accident, oddly enough, are much more excitable as a rule, than women, according to Dr. O'Malley. A woman's natural nursing instinct seems to tell her that the best thing to do for an injured person is to keep him quiet and comfortable as possible. A man, on the other hand, is impelled by an irresistible urge to do something active and positive.

He continued:

"The good samaritan" should cover victims with a blanket or coat. Warmth helps. Bleeding, if possible, should receive immediate attention. It can be checked with a handkerchief compress or by finger pressure on the artery without moving the victim. Before the numbness or shock has worn off the high-speed ambulance and staff will be on the scene and the "good samaritan's" job is over.

Judges Say Terms Of Yeggs Too Severe

NEW YORK (UP)—The Appellate Division today unanimously upheld the conviction of (Lucky) Luciano and five of his lieutenants in one of the most elaborate vice rings ever uncovered here.

Two of the five justices, however, expressed the opinion that the sentences given the gangsters were too severe, particularly the 30 to 50 year term which Luciano is serving.

C. C. Herbert, forest road superintendent, was at Kirkwood Lake on Friday.

Jim Merryman was in town Friday from his resort above Smith Flat.

Harry Dunlap is getting about with the aid of a cane as the result of a sprained ankle.

Miss Mary Robert and friend, Berniece Zak, made a business trip to Reno Thursday. They were accompanied by Mr. and Mrs. John Scherrer and John Dondoro.
